JIYA JOY

Software Developer

PROFILE

Experienced computer science professional with 6 years as an Assistant Professor, excelling in teaching programming languages and guiding students in projects and coding competitions. Alongside my academic journey, I possess 5 years of industry expertise, specializing in freelance web development, software development, and software testing, while also demonstrating adeptness in project coordination for academic initiatives. Currently pursuing a post-graduate diploma in Mobile Solutions Development at Conestoga College, I am eager to leverage my teaching and software development skills, particularly in Android app development, web development, and software testing roles.
